SUMMARY

Third-year Computer Science Engineering student passionate about solving real-world problems through technology. Proficient in the **MERN stack** (MongoDB, Express.js, React, Node.js) and skilled in **Data Structures and Algorithms**, brings a solid foundation in **software development**. Currently exploring Docker to strengthen my understanding of containerization, enthusiastic about **open source contributions**, and stay up-to-date with emerging tech trends.

EDUCATION

2022 - present	Bachelor's of Engineering at Chitkara University , Rajpura	(CGPA: 8.73/10.0)
2022	Class 12th from Dellmond Internation School, CBSE Board	(73.6 %)
2020	Class 10th from Dellmond Internation School, CBSE Board	(79.8 %)

SKILLS

Problem solving:	C++, Java
Frontend:	HTML, CSS, Javascript, Typescript, React
Backend:	NodeJS, Express, MongoDB
Tools:	Git, Postman, Figma, Docker
Others:	Leadership, Team Management, Communication

PROJECTS

Harmony

[Live Link / Project Link](#)

Harmony is a MERN-based website designed to support mental health and well-being. It provides users with a platform to book appointments with certified doctors and mental health professionals, particularly for those experiencing depression or emotional challenges. The website also features a self-assessment tool that allows users to check their mental health status, offering personalized insights and suggestions for the next steps.

Blogy

[Live Link / Project Link](#)

Developed a dynamic blogging platform where users can create, edit, and publish blog posts. Features include user authentication, a rich text editor, and comment functionality for readers. Integrated a responsive design for seamless user experience across devices.

Elev8

[Project Link](#)

Elev8 is a comprehensive event management platform built for organizations and companies to streamline the planning and execution of events and hackathons. This website allows authorized users to participate in these events seamlessly, offering features like ticket generation, real-time updates, and event details.

ACHIEVEMENTS

Solved 300+ DSA questions on different platforms like: Leetcode and GFG.
Contribute to over 10 open-source projects in GirlScript Summer of Code.
Shortlisted for HackChill (Hackathon) organized by GDSC - April 2024.
On the Dean's List as a Star Programmer - May 2023.
